

TRANStec®

New Product Announcement

Our new Core Optimizer™ Program provides innovative solutions that save you time and money!

This new kit contains the components designed to seal a rack-shaft machined 0.020" undersized.

Now rack and pinion units with shafts that are heavily pitted from rust can be restored to serviceable condition without the expense and delay of applying a spray metal or re-chroming.

Application coverage:

1995-2004 Toyota Tacoma 4WD

1998-2003 Toyota Tacoma 2WD Prerunner with 4WD Suspension

1996-2002 Toyota 4Runner

Call today and order kit # 9200.

Includes undersized rack-shaft seals & bushing
